

TEAM STANDARDS

2025-2026

Each season, AGUA uses team standards to help guide group placements and ensure swimmers are placed in an environment that best supports their development. These standards reflect the performance, training habits, and commitment expectations appropriate for each training group. Athletes who fail to meet these standards may not be offered a roster spot for the upcoming season.

Group	Attendance	Meet Participation	Competitive Performance	Training Proficiency
AG1	50%	5	Measured by seasonal progress	Measured on a case-by-case basis to maintain group continuity.
AG2	60%	6		
AG3	70%	7		
SP	75%	8		

Commitment to AGUA through practice attendance and meet participation are the main factors being evaluated. If your swimmer does not meet the minimum standards for their respective training group, they may not be accepted for the following AGUA season. We will also evaluate each swimmers' competitive performance through their seasonal progress and their training proficiency to reduce training disparity during practice sessions. To view your swimmer's attendance and performance summary, use the instructions below.

Attendance: You can review your swimmer's attendance report by logging into your account at aguaswim.com, and following the steps below:

- My account
- Member and select the correct member
- Attendance

Competitive Performance: You can review your swimmer's competitive performance by logging into your account at aguaswim.com, and following the steps below:

- My account
- Member and select the correct member
- Best Times

Alternatively, you can review your swimmer's competitive performance on the USA Swimming time search engine [here](#), by searching their name.
